US-MADE PLANES OVER CCP CAPITAL -- Wen-hui Pao, 14 Oct 49

Pei-p'ing -- On 1 October 1949, the day of the glorious birth of the People's Republic of China, we /newspaper correspondents/ arrived at a certain air base to fly in a review of the People's Air Force. The silver, green, and gray planes were lined up on both sides of the runway of the spacious field. All were freshly painted with red noses and there were gold-bordered red stars on the fuselage and wings. The tails were painted with red and white stripes. These were all American-made planes, which in the course of the war of liberation had been flown over voluntarily by their courageous pilots or captured by our ground forces.

COMMUNISTS LAND ON LIU-HENG TAO -- Nan-ch'iao Jih-pao, 13 Oct 49

Hong Kong, 12 October (NCNA) -- It is reported that the People's Liberation Army made a landing on Liu-heng Tao, third largest island of the Chou-shan Tao group located off the coast of eastern Chokiang. If this report is true, it means that the Nationalists have lost a second naval and air base from which they carried out the blockade of the East China coast.

CNA AIR FORCE REPAIRING SHAN-TSAO TAO AIRFIELD -- Nan-ch'iao Jih-pao, 30 Sep 49

Hong Kong, 29 September (NCNA) -- Although Chou Chih-jou (Ueda: 1235, 9610, 4849) head of the Chinese Nationalist Air Force, refutes this report, it is reliably reported that Nationalist forces are now repairing the airfield at Shan-tsao Tao, near the mouth of the Chu Chiang. This field was constructed by the Japanese during the war.
